Course Management System API

Complete API collection for Course Management System with sample data

Thank You!

Thank you for exploring the Course Management System API documentation. This project demonstrates a complete REST API implementation with Spring Boot, featuring user management, course creation, enrollment handling, and file uploads.

User Management

APIs for user registration, login, and profile management

POST Register Admin

`http://localhost:8080/api/auth/register`

Register a new admin user

HEADERS

Example Request

Register Admin

curl

```
curl --location 'http://localhost:8080/api/auth/register' \
--header 'Content-Type: application/json' \
--data-raw '{
  "fullName": "Admin User",
  "email": "admin@cms.com",
}
```

Content-Type application/json

Body raw

```
{
  "fullName": "Admin User",
  "email": "admin@cms.com",
  "password": "admin123",
  "role": "ADMIN"
}
```

```
"password": "admin123",
"role": "ADMIN"
}'
```

Example Response

Body Headers (5) 201 CREATED

```
{
  "id": 1,
  "fullName": "Admin User",
  "email": "admin@cms.com",
  "role": "ADMIN",
  "profilePicture": null,
  "createdAt": "2026-03-07T21:55:51.637316"
}
```

POST Register Instructor

http://localhost:8080/api/auth/register

Register a new instructor

HEADERS

Content-Type application/json

Body raw

```
{
  "fullName": "John Instructor",
  "email": "instructor@cms.com",
  "password": "instructor123",
  "role": "INSTRUCTOR"
}
```

Example Request Register Instructor

```
curl
curl --location 'http://localhost:8080/api/auth/register' \
--header 'Content-Type: application/json' \
--data-raw '{
  "fullName": "John Instructor",
  "email": "instructor@cms.com",
  "password": "instructor123",
  "role": "INSTRUCTOR"
}'
```

Example Response

Body Headers (5) 201 CREATED

```
{
  "id": 2,
  "fullName": "John Instructor",
  "email": "instructor@cms.com",
  "role": "INSTRUCTOR",
  "profilePicture": null,
  "createdAt": "2026-03-07T22:10:11.267136"
}
```

POST Register Student

http://localhost:8080/api/auth/register

Register a new student

HEADERS

Content-Type application/json

Example Request Register Student

```
curl
curl --location 'http://localhost:8080/api/auth/register' \
--header 'Content-Type: application/json' \
--data-raw '{
  "fullName": "Jane Student",
  "email": "student@cms.com",
  "password": "student123",
  "role": "STUDENT"
}'
```

Body raw

```
{
  "fullName": "Jane Student",
  "email": "student@cms.com",
  "password": "student123",
  "role": "STUDENT"
}
```

POST Login User

http://localhost:8080/apl/auth/login

Login with email and password

HEADERS

Content-Type application/json

Body raw

```
{
  "email": "instructor@cms.com",
  "password": "instructor123"
}
```

GET Get User by ID

http://localhost:8080/apl/users/1

Get user details by user ID

Example Response

Body Headers (5)

201 CREATED

```
{
  "id": 3,
  "fullName": "Jane Student",
  "email": "student@cms.com",
  "role": "STUDENT",
  "profilePicture": null,
  "createdAt": "2026-03-07T22:10:56.566381"
}
```

Example Request

Login User

curl

```
curl --location 'http://localhost:8080/api/auth/login' \
--header 'Content-Type: application/json' \
--data-raw '{
  "email": "instructor@cms.com",
  "password": "instructor123"
}'
```

Example Response

Body Headers (5)

200 OK

```
{
  "id": 2,
  "fullName": "John Instructor",
  "email": "instructor@cms.com",
  "role": "INSTRUCTOR",
  "profilePicture": null,
  "createdAt": "2026-03-07T22:10:11.267136"
}
```

Example Request

Get User by ID

curl

```
curl --location 'http://localhost:8080/api/users/1'
```

Example Response

Body Headers (5)

200 OK

```
{
  "id": 1,
  "fullName": "Admin User",
  "email": "admin@cms.com",
  "role": "ADMIN",
  "profilePicture": null
}
```

Course Management

APIs for creating, updating, deleting, and viewing courses

POST Create Course - Spring Boot

http://localhost:8080/api/courses?instructorId=2

Create a new Spring Boot course

HEADERS

Content-Type application/json

PARAMS

InstructorId 2
ID of the instructor (change as needed)

Body raw

```
{
  "title": "Spring Boot Fundamentals",
  "description": "Learn Spring Boot from scratch with hands-on projects",
  "price": 99.99,
  "duration": "6 weeks",
  "level": "Beginner"
}
```

POST Create Course - React

http://localhost:8080/api/courses?instructorId=2

Create a new React course

HEADERS

Content-Type application/json

PARAMS

InstructorId 2

```
    "createdAt": "2026-03-07T21:55:51.637316"
  }
}
```

Example Request

Create Course - Spring B... ▼

curl

```
curl --location 'http://localhost:8080/api/courses?instructorId=2' \
--header 'Content-Type: application/json' \
--data '{
  "title": "Spring Boot Fundamentals",
  "description": "Learn Spring Boot from scratch with hands-on projects",
  "price": 99.99,
  "duration": "6 weeks",
  "level": "Beginner"
}'
```

Example Response

Body Headers (5)

201 CREATED

```
{
  "id": 1,
  "title": "Spring Boot Fundamentals",
  "description": "Learn Spring Boot from scratch with hands-on projects",
  "price": 99.99,
  "duration": "6 weeks",
  "level": "Beginner",
  "instructorName": "John Instructor",
  "createdAt": "2026-03-07T22:12:29.853474"
}
```

Example Request

Create Course - React ▼

curl

```
curl --location 'http://localhost:8080/api/courses?instructorId=2' \
--header 'Content-Type: application/json' \
--data '{
  "title": "React JS Complete Guide",
  "description": "Master React JS with modern hooks and best practices",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Intermediate"
}'
```

Example Response

Body Headers (5)

201 CREATED

Body raw

```
{
  "title": "React JS Complete Guide",
  "description": "Master React JS with modern hooks and best practices",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Intermediate"
}
```

POST Create Course - Python

http://localhost:8080/api/courses?instructorId=2

Create a new Python course

HEADERS

Content-Type application/json

PARAMS

instructorId 2

Body raw

```
{
  "title": "Python for Data Science",
  "description": "Learn Python programming for data analysis and machine learning",
  "price": 199.99,
  "duration": "10 weeks",
  "level": "Advanced"
}
```

PUT Update Course

http://localhost:8080/api/courses/1

Update course details by course ID

HEADERS

Content-Type application/json

Body Headers (5)

```
{
  "id": 2,
  "title": "React JS Complete Guide",
  "description": "Master React JS with modern hooks and best practices",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Intermediate",
  "instructorName": "John Instructor",
  "createdAt": "2026-03-07T22:13:38.455407"
}
```

Example Request

Create Course - Python

```
curl
curl --location 'http://localhost:8080/api/courses?instructorId=2' \
--header 'Content-Type: application/json' \
--data '{
  "title": "Python for Data Science",
  "description": "Learn Python programming for data analysis and machine learning",
  "price": 199.99,
  "duration": "10 weeks",
  "level": "Advanced"
}'
```

Example Response

Body Headers (5)

201 CREATED

```
{
  "id": 3,
  "title": "Python for Data Science",
  "description": "Learn Python programming for data analysis and machine learning",
  "price": 199.99,
  "duration": "10 weeks",
  "level": "Advanced",
  "instructorName": "John Instructor",
  "createdAt": "2026-03-07T22:13:48.090007"
}
```

Example Request

Update Course

```
curl
curl --location --request PUT 'http://localhost:8080/api/courses/1' \
--header 'Content-Type: application/json' \
--data '{
  "title": "Advanced Spring Boot",
  "description": "Master Spring Boot with microservices and cloud deployment",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Advanced"
}'
```

Body raw

```
{
  "title": "Advanced Spring Boot",
  "description": "Master Spring Boot with microservices and cloud deployment",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Advanced"
}
```

GET Get All Courses (Default)

http://localhost:8080/api/courses

Get all courses with default pagination (page=0, size=10, sort=title)

GET Get All Courses (Page 0, Size 5)

http://localhost:8080/api/courses?page=0&size=5&sort=title

Get courses with pagination - Page 0, 5 items, sorted by title

PARAMS

page	0
	Page number (0-indexed)
size	5
	Number of items per page
sort	title

Example Response

BodyHeaders (5)200 OK

```
{
  "id": 1,
  "title": "Advanced Spring Boot",
  "description": "Master Spring Boot with microservices and cloud deployment",
  "price": 149.99,
  "duration": "8 weeks",
  "level": "Advanced",
  "instructorName": "John Instructor",
  "createdAt": "2026-03-07T22:12:29.853474"
}
```

Example Request

Get All Courses (Default)

```
curl
curl --location 'http://localhost:8080/api/courses'
```

Example Response

BodyHeaders (5)200 OK

```
{
  "content": [
    {
      "id": 1,
      "title": "Advanced Spring Boot",
      "description": "Master Spring Boot with microservices and cloud deployment",

}
```

Example Request

Delete Course ▾

curl

Delete a course by course ID

Enrollment Management

APIs for student enrollment in courses

POST Enroll Student in Course

http://localhost:8080/api/enrollments

Enroll a student in a course

HEADERS

Content-Type application/json

Body raw

```
{
  "courseId": 2,
  "studentId": 3
}
```

POST Enroll Student in Another Course

http://localhost:8080/api/enrollments

Enroll the same student in another course

HEADERS

```
curl --location --request DELETE 'http://localhost:8080/api/courses/1'
```

Example Response

Body Headers (3)

204 NO CONTENT

No response body

This request doesn't return any response body

Example Request

Enroll Student in Course ▾

```
curl
curl --location 'http://localhost:8080/api/enrollments' \
--header 'Content-Type: application/json' \

Course Material Management

APIs for uploading, downloading, and managing course materials

POST Upload Course Material

http://localhost:8080/api/materials/upload

Upload a course material file (max 10MB)

Body formdata

title	Lecture 1 - Introduction
	Title of the material
courseId	2
	ID of the course
file	Select a file to upload (PDF, video, etc.)

GET Get Materials by Course ID

http://localhost:8080/apl/materials/course/2

Get all materials for a specific course

```
  "progressPercentage": 0,  
  "enrollmentDate": "2026-03-07"  
}  
]
```

Example Request

Upload Course Material ▾

curl

```
curl --location 'http://localhost:8080/api/materials/upload' \  
--form 'title="Lecture 1 - Introduction"' \  
--form 'courseId="2"' \  
--form 'file=@/C:/Users/avuna/Downloads/wizard.png'
```

Example Response

Body Headers (5)

201 CREATED
